Dear Yona,

It is with great pleasure that I write this letter of endorsement to you and Thinking Skills for providing the Opening Session at our Chabad of Illinois Annual Conference.

It was easy for me to recommend you to my organization as a local talent, not only because of our personal relationship, but moreover, because in the past year I had been a participant at one of your workshops given to the Peoria Jewish Federation's--Kadima Leadership Program. From that, I knew that you could be entertaining and educational.

In the Opening Session called *Clear, Cleaver and Fun Communications* you were able to warm up the crowd, bring the group together, and set the conference going in a strong and exciting direction. By the way, this type of material was completely new for our group, something we have never seen before.

Your workshop was very interactive, it pushed the participants to thinking out of their usual this-is-how-we-do-business box, and you help a group of individuals to see the value of working together.

Thank you for your time, effort and your wonderful presentation. I highly recommend you to anyone.

Shalom,

Rabbi Eli Langsam
Director
